PROFESSIONAL SUMMARY

Computer Science student skilled in Java, Python, SQL, and web development. Experienced in developing projects involving OpenCV and machine learning concepts. Certified in Java programming and networking. Passionate about building efficient, data-driven applications and seeking an internship to gain industry exposure and enhance technical expertise.

EDUCATION

GITAM University Bachelor of Technology in Computer Science Engineering CGPA: 9.05/10	2023 – Present
Sri Chaitanya Junior College Intermediate Percentage: 95.4%	2021 – 2023
Sri Chaitanya School SSC Percentage: 99%	2021

TECHNICAL SKILLS

Programming Languages: Java, Python, C, SQL
Web Technologies: HTML, CSS, JavaScript, ReactJS, AngularJS
Libraries: OpenCV, NumPy, Pandas
Tools: Git, GitHub, VS Code, IntelliJ IDEA

EXPERIENCE

Machine Learning Intern GITAM University	Dec 2025 – Apr 2026
- Developed a defect dataset augmentation system using Generative Adversarial Networks (GANs). - Designed and trained Generator and Discriminator models for synthetic image generation. - Improved dataset diversity and reduced overfitting through data augmentation techniques. - Enhanced model performance by generating realistic defect samples.	
Image Processing Intern CSIR-SPARK Program	Jan 2026
- Built a font recognition system using Python and OpenCV. - Applied grayscale conversion, filtering, and edge detection techniques. - Extracted features such as stroke width, spacing, and serif patterns. - Improved recognition accuracy through testing and optimization.	

PROJECTS

Defect Dataset Augmentation using GAN

- Developed a GAN-based framework to generate synthetic defect images.
- Increased training data diversity and improved model generalization.
- Reduced overfitting by augmenting limited datasets with realistic samples.
- Technologies Used: Python, GANs, OpenCV.

AI Interview Platform

- Developed a full-stack AI-powered interview preparation platform using ReactJS, Spring Boot, and MySQL.
- Implemented resume upload and skill extraction to generate personalized interview questions.
- Integrated AI-based question generation and evaluation workflows to simulate real interview experiences.
- Designed a dashboard for interview history, performance tracking, and candidate feedback.
- Built secure REST APIs for user authentication, resume management, and interview sessions.
- Technologies Used: ReactJS, Spring Boot, Java, MySQL, REST APIs.

CERTIFICATIONS

- Programming in Java – NPTEL (Elite)
- Networking Basics – Cisco Networking Academy
- Welcome to ServiceNow Micro-Certification
